13. (Previously Presented) A tester for testing for explosives associated with a test location, comprising:

a tester body;

a first reagent for detecting explosives;

a first reagent container for receiving said first reagent means;

a second reagent for detecting explosives;

a second reagent container for receiving said second reagent means;

a flat disk sample collection pad for exposure to said test location, exposure to said first explosives detecting reagent, and exposure to said second explosives detecting reagent, said flat disk sample collection pad operatively connected to said tester body,

wherein said first reagent container is operatively connected to said body and positioned to deliver said first reagent to said flat disk sample collection pad,

wherein said second reagent container is operatively connected to said body and positioned to deliver said second reagent to said flat disk sample collection pad; and

an environmental means for receiving said flat disk sample collection pad, said environmental means being a heater or a dryer operatively connected to said tester body for heating or drying said flat disk sample collection pad and testing the test location for the explosives.

14. (Original) The tester of claim 13 wherein said environmental means is a heater.

15. (Original) The tester of claim 13 wherein said environmental means is a dryer.

16. (Original) The tester of claim 13 wherein said environmental means is a heater and dryer.

17. (Original) The tester of claim 13 wherein said environmental means is a chemical heater.

18. (Original) The tester of claim 13 wherein said environmental means is an electric heater.

19. (Original) The tester of claim 18 including a heating pad.

20. (Previously Presented) The tester of claim 18 including a receiving unit for receiving said flat disk sample collection pad.

21. (Previously Presented) The tester of claim 18 including a heating pad and a receiving unit for receiving said flat disk sample collection pad.

22. (Original) The tester of claim 18 including a battery for providing power to said heater.

23. (Original) The tester of claim 18 including a switch for controlling said heater.

24. (Original) The tester of claim 18 including a battery for providing power to said heater and a switch for controlling said heater.
